

## EMPLOYMENT RELOCATION FORM

Thank you for enrolling in the Game Art & Design program at The Art Institute of Pittsburgh - Online Division. This program is designed to prepare you to compete for entry level positions in the game design and related industries when you graduate.

There are game industry employers across the United States, but as the game industry grew and expanded, certain geographic areas like California, Texas, Massachusetts, New York and Florida became nature industry centers. New markets may be added in your area in the future, however, you need to be prepared to relocate to work in this industry. Therefore, as you start this program we want to be sure you understand that you will probably need to relocate after graduation to gain an entry-level position in this industry.

I understand that I may have to relocate to gain entry level employment in the game industry after successful graduation from the Game Art & Design program.
